DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claim:

In claim 33, line 2, "a said" has been changed to --said--.

Allowable Subject Matter

2. Claims 33 and 34 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The claims are allowed over the cited prior art because none of the references teaches or discloses a method for disabling a switch-mode power converter having a drive transformer winding and a switch conduction control circuit, the method comprising the steps of: sensing a condition on the output of the power converter that requires the power converter to be disabled; shorting a drive transformer winding connected to circuitry referenced to the output side of the power converter; detecting excessive current across a drive transformer winding connected to said switch conduction control circuit connected to the input side of the power converter; and sending a signal to disable the switch conduction control circuit, thus disabling the converter.

Any comments considered necessary by applicant must be submitted no later than the payment
